THE WELLCOME CHEMICAL RESEARCH LABORATORIES

1897

1. JOWETT, H. A. D. (1897). Some New Gold Salts of Hyoscine, Hyoscyamine and Atropine. *J. chem. Soc.*, **71**, 679.

1898

*2. JOWETT, H. A. D. (1898). The Characters and Methods of Assay of the Official Hypophosphites. *Pharm. J.*, **61**, 171.
*3. JOWETT, H. A. D. (1898). Note of the Mydriatic Alkaloids. *Pharm. J.*, **61**, 185.

1899

*4. SCHRYVER, S. B. (1899). Preparation of Acid Phenylic Salts of Dibasic Acids. *J. chem. Soc.*, **75**, 661.
*5. SCHRYVER, S. B. (1899). A New Method for the Analysis of Commercial Phenols. *J. Soc. chem. Ind.*, **18**, 17.
*6. JOWETT, H. A. D. (1899). The Assay of Preparations Containing Pilocarpine. *Pharm. J.*, **63**, 91.

1900

*7. JOWETT, H. A. D. (1900). Pilocarpine and the Alkaloids of Jaborandi Leaves. *J. chem. Soc.*, **77**, 473.
*8. JOWETT, H. A. D. (1900). A New Glucoside from Willow Bark. *J. chem. Soc.*, **77**, 707.
*9. JOWETT, H. A. D. (1900). The Constitution of Pilocarpine, Part I. *J. chem. Soc.*, **77**, 851.
*10. POWER, F. B. & SHEDDEN, F. (1900). The Composition and Determination of Cerium Oxalate. *J. Soc. chem. Ind.*, **19**, 636.
*11. SCHRYVER, S. B. & LEES, F. H. (1900). Researches on Morphine, Part I. *J. chem. Soc.*, **77**, 1024.
12. POWER, F. B. (1900). Observations Relating to the Chemistry of the British Pharmacopœia. *Yearbook of Pharmacy*, 316.
*13. POWER, F. B. (1900). Mercurous Iodide. *Yearbook of Pharmacy*, 503.
*14. SHEDDEN, F. (1900). The Composition of Berberine Phosphate. *Pharm. J.*, **65**, 89.
15. PÉRRÈDES, P. É. F. (1900). A Contribution to the Pharmacognosy of Official Strophanthus Seed. *Yearbook of Pharmacy*, 366.
*16. JOWETT, H. A. D. & MARSHALL, C. R. (1900). The Chemistry of the Jaborandi Alkaloids. *Brit. med. J.*, **ii**, 1074.

1901

*17. PÉRRÈDES, P. É. F. (1901). A New Admixture of Commercial Strophanthus Seed. *Pharm. J.* **66**, 518.
*18. SCHRYVER, S. B. & LEES, F. H. (1901). Researches on Morphine, Part II. *J. chem. Soc.*, **79**, 563.
*19. JOWETT, H. A. D. (1901). The Constitution of Pilocarpine, Part II. *J. chem. Soc.*, **79**, 580.

* *The numbers marked with an asterisk are out of print*

*20. POWER, F. B. (1901). The Chemistry of the Bark of *Robinia pseud-acacia*, Linn. *Pharm. J.*, **67**, 258, 275.

*21. PÉRRÈDES, P. É. F. (1901). The Anatomy of the Bark of *Robinia pseud-acacia*, Linn. *Pharm. J.*, **67**, 153.

22. POWER, F. B. (1901). A Soluble Manganese Citrate and Compounds of Manganese with Iron. *Pharm. J.*, **67**, 135.

23. POWER, F. B. & SHEDDEN, F. (1901). The Chemical Characters of so-called Iodo-tannin Compound. *Pharm. J.*, **67**, 147.

*24. JOWETT, H. A. D. (1901). The Constitution of Pilocarpine, Part III. *J. chem. Soc.*, **79**, 1331.

*25. JOWETT, H. A. D. (1901). A New Synthesis of *a*-Ethyltricarballylic Acid. *J. chem. Soc.*, **79**, 1346.

1902

*26. POWER, F. B. & LEES, F. H. (1902). The Constituents of the Essential Oil of *Asarum canadense*, Linn. *J. chem. Soc.*, **81**, 59.

*27. POWER, F. B. & SHEDDEN, F. (1902). Derivatives of Gallic Acid. *J. chem. Soc.*, **81**, 73.

*28. JOWETT, H. A. D. & POTTER, C. E. (1902). The Occurrence of Salicin in Different Willow and Poplar Barks. *Pharm. J.*, **69**, 157.

*29. JOWETT, H. A. D. & POTTER, C. E. (1902). The Constituents of Commercial Chrysarobin. *J. chem. Soc.*, **81**, 1575.

*30. POWER, F. B. & LEES, F. H. (1902). The Constituents of an Essential Oil of Rue. *J. chem. Soc.*, **81**, 1585.

*31. LEES, F. H. (1902). Methyl *β*-Methylhexyl Ketone. *J. chem. Soc.*, **81**, 1594.

1903

*32. LEES, F. H. (1903). Interaction of Ketones and Aldehydes with Acid Chlorides. *J. chem. Soc.*, **83**, 145.

*33. PÉRRÈDES, P. É. F. (1903). The Anatomy of the Stem of *Derris uliginosa*. *Proc. Amer. pharm. Assoc.*, **50**, 321.

*34. POWER, F. B. (1903). The Chemistry of the Stem of *Derris uliginosa*, Benth. *Proc. Amer. pharm. Assoc.*, **50**, 296.

*35. JOWETT, H. A. D. (1903). The Constitution of Pilocarpine, Part IV. *J. chem. Soc.*, **83**, 438.

*36. JOWETT, H. A. D. & POTTER, C. E. (1903). Preparation and Properties of Dimethylglyoxaline and Dimethylpyrazole. *J. chem. Soc.*, **83**, 464.

*37. LEES, F. H. & SHEDDEN, F. (1903). The Electrolytic Reduction of Pheno- and Naphtho-morpholones. *J. chem. Soc.*, **83**, 750.

*38. POWER, F. B. & LEES, F. H. (1903). Chemical Examination of Ko-sam Seeds (*Brucea sumatrana*, Roxb.). *Pharm. J.*, **71**, 183.

39. PÉRRÈDES, P. É. F. (1903). Comparative Anatomy of the Barks of the Salicaceæ, Part I. *Pharm. J.*, **71**, 171.

*40. JOWETT, H. A. D. & POTTER, C. E. (1903). The Constituents of Chrysophanic Acid and of Emodin. *J. chem. Soc.*, **83**, 1327.

1904

*41. JOWETT, H. A. D. (1904). The Constitution of Epinephrine. *J. chem. Soc.*, **85**, 192.

*42. POWER, F. B. & TUTIN, F. (1904). A Lævo-rotatory Modification of Quercitol. *J. chem. Soc.*, **85**, 624.

*43. POWER, F. B. & LEES, F. H. (1904). The Constituents of the Essential Oil of Californian Laurel. *J. chem. Soc.*, **85**, 629.

*44. LEES, F. H. (1904). Some Derivatives of Umbellulone. *J. chem. Soc.*, **85**, 639.

*45. POWER, F. B. & GORNALL, F. H. (1904). The Constituents of Chaulmoogra Seeds. *J. chem. Soc.*, **85**, 838.

*46. POWER, F. B. & GORNALL, F. H. (1904). The Constitution of Chaulmoogric Acid, Part I. *J. chem. Soc.*, **85**, 851.

47. JOWETT, H. A. D. (1904). Chemical Examination of Cascara Bark. *Proc. Amer. pharm. Assoc.*, **52**, 288.

*48. POWER, F. B. & TUTIN, F. (1904). Chemical Examination of Gymnema Leaves. *Yearbook of Pharmacy*, 526.

* *The numbers marked with an asterisk are out of print*

1905

*49. POWER, F. B. & TUTIN, F. (1905). The Relation Between Natural and Synthetical Glyceryl-phosphoric Acids. *J. chem. Soc.*, **87**, 249.
*50. POWER, F. B. & LEES, F. H. (1905). Gynocardin, A New Cyanogenetic Glucoside. *J. chem. Soc.*, **87**, 349.
*51. JOWETT, H. A. D. (1905). Preparation and Properties of 1 : 4 : 5-Trimethylglyoxaline, *J. chem. Soc.*, **87**, 405.
*52. JOWETT, H. A. D. (1905). The Constitution of Pilocarpine, Part V. *J. chem. Soc.*, **87**, 794.
*53. JOWETT, H. A. D. & POTTER, C. E. (1905). The Constitution of Barbaloin, Part I. *J. chem. Soc.*, **87**, 878.
*54. POWER, F. B. & BARROWCLIFF, M. (1905). The Constituents of the Seeds of *Hydnocarpus wightiana*, Blume, and of *Hydnocarpus anthelmintica*, Pierre. *J. chem. Soc.*, **87**, 884.
*55. POWER, F. B. & BARROWCLIFF, M. (1905). The Constituents of the Seeds of *Gynocardia odorata*, R. Br. *J. chem. Soc.*, **87**, 896.
*56. BARGER, G. & JOWETT, H. A. D. (1905). The Synthesis of Substances Allied to Epinephrine. *J. chem. Soc.*, **87**, 967.
*57. POWER, F. B. & TUTIN, F. (1905). Chemical Examination of Grindelia. *Proc. Amer. pharm. Assoc.*, **53**, 200.
*58. POWER, F. B. & TUTIN, F. (1905). Chemical Examination of *Aethusa cynapium*, Linn. *J. Amer. chem. Soc.*, **27**, 1461.

1906

*59. JOWETT, H. A. D. & HANN, A. C. O. (1906). Preparation and Properties of some new Tropeines. *J. chem. Soc.*, **89**, 357.
*60. POWER, F. B. & TUTIN, F. (1906). The Constituents of the Essential Oil from the Fruit of *Pittosporum undulatum*, Vent. *J. chem. Soc.*, **89**, 1083.
*61. TUTIN, F. (1906). The Constitution of Umbellulone. *J. chem. Soc.*, **89**, 1104.
62. PÉRRÈDES, P. É. F. (1906). London Botanic Gardens.
*63. POWER, F. B. & TUTIN, F. (1906). Chemical and Physiological Examination of the Fruit of *Chailletia toxicaria*. *J. Amer. chem. Soc.*, **28**, 1170.
64. POWER, F. B. & TUTIN, F. (1906). Chemical Examination of Eriodictyon. *Proc. Amer. pharm. Assoc.*, **54**, 302.
65. PÉRRÈDES, P. É. F. (1906). The Botanical Characters of some Californian Species of *Grindelia*. *Proc. Amer. pharm. Assoc.*, **54**, 370.
66. TUTIN, F. & HANN, A. C. O. (1906). The Relation between Natural and Synthetical Glyceryl-phosphoric Acid, Part II. *J. chem. Soc.*, **89**, 1749.

1907

*67. TUTIN, F. (1907). The Constitution of Umbellulone, Part II. *J. chem. Soc.*, **91**, 271.
*68. TUTIN, F. (1907). The Reduction of Hydroxylaminodihydroumbelluloneoxime. *J. chem. Soc.*, **91**, 275.
*69. BARROWCLIFF, M. & POWER, F. B. (1907). The Constitution of Chaulmoogric and Hydnocarpic Acids. *J. chem. Soc.*, **91**, 557.
*70. BARROWCLIFF, M. (1907). The Constituents of the Essential Oil of American Pennyroyal. *J. chem. Soc.*, **91**, 875.
*71. POWER, F. B. & TUTIN, F. (1907). The Constitution of Homoeriodictyol. *J. chem. Soc.*, **91**, 887.
*72. TUTIN, F. (1907). The Interaction of Methylene Chloride and the Sodium Derivative of Ethyl Malonate. *J. chem. Soc.*, **91**, 1141.
73. POWER, F. B. & SALWAY, A. H. (1907). Chemical Examination of the Fruit of *Brucea antidysenterica*, Lam. *Yearbook of Pharmacy*, 483.
74. SALWAY, A. H. & THOMAS, W. (1907). Chemical Examination of the Barks of *Brucea antidysenterica*, Lam., and *Brucea sumatrana*, Roxb. *Yearbook of Pharmacy*, 477.
75. POWER, F. B. & TUTIN, F. (1907). Chemical Examination of Grindelia, Part II. *Proc. Amer. pharm. Assoc.*, **55**, 337.
76. POWER, F. B. & TUTIN, F. (1907). Chemical Examination of *Lippia scaberrima*, Sonder (" Beukess Boss "). *Amer. J. Pharm.*, **79**, 449.

* *The numbers marked with an asterisk are out of print*

*77. BARROWCLIFF, M. & TUTIN, F. (1907). Chemical Examination of the Root and Leaves of *Morinda longiflora*. *J. chem. Soc.*, **91**, 1907.
*78. POWER, F. B. & SALWAY, A. H. (1907). The Constituents of the Essential Oil of Nutmeg. *J. chem. Soc.*, **91**, 2037.

1908

79. POWER, F. B. & SALWAY, A. H. (1908). Chemical Examination of *Micromeria chamissonis* (Yerba Buena). *J. Amer. chem. Soc.*, **30**, 251.
*80. TUTIN, F. (1908). The Constitution of Umbellulone, Part III. *J. chem. Soc.*, **93**, 252.
*81. POWER, F. B. & TUTIN, F. (1908). The Constituents of Olive Leaves. *J. chem. Soc.*, **93**, 891.
*82. POWER, F. B. & TUTIN, F. (1908). The Constituents of Olive Bark. *J. chem. Soc.*, **93**, 904.
*83. POWER, F. B. & ROGERSON, H. (1908). Chemical Examination of *Ipomœa purpurea*. *Amer. J. Pharm.*, **80**, 251.
84. POWER, F. B. & ROGERSON, H. (1908). The Characters of Official Iron Arsenate. *Pharm. J.*, **81**, 349.
85. POWER, F. B. & ROGERSON, H. (1908). Preparation of a Soluble Ferric Arsenate *Pharm. J.*, **81**, 342.
*86. POWER, F. B. & SALWAY, A. H. (1908). The Constituents of the Expressed Oil of Nutmeg. *J. chem. Soc.*, **93**, 1653.
*87. POWER, F. B. & SALWAY, A. H. (1908). Chemical Examination and Physiological Action of Nutmeg. *Amer. J. Pharm.*, **80**, 563.
88. POWER, F. B. & TUTIN, F. (1908). Some Observations Regarding " Oleuropein" from Olive Leaves. *Pharm. J.*, **81**, 714.

1909

*89. TUTIN, F. & CLEWER, H. W. B. (1909). Chemical Examination of Eriodictyon, Part II. *J. chem. Soc.*, **95**, 81.
*90. POWER, F. B. & MOORE, C. W. (1909). The Constituents of the Bark of *Prunus serotina*. *J. chem. Soc.*, **95**, 243.
91. MOORE, C. W. (1909). The Constituents of the Rhizome of *Apocynum androsæmifolium*. *J. chem. Soc.*, **95**, 734.
92. TUTIN, F. (1909). *Iso*-Amygdalin, and the Resolution of its Hepta-acetyl Derivative. *J. chem. Soc.*, **95**, 663.
93. SALWAY, A. H. (1909). The Action of Nitric Acid on the Ethers of Aromatic Hydroxyaldehydes. *J. chem. Soc.*, **95**, 1155.
94. SALWAY, A. H. (1909). The Synthesis of Substances allied to Cotarnine. *J. chem. Soc.*, **95**, 1204.
95. POWER, F. B. & MOORE, C. W. (1909). Chemical Examination of Elaterium and the Characters of Elaterin. *Pharm. J.*, **83**, 501.
96. TUTIN, F. (1909). The Tests for Purity of Quinine Salts. *Pharm. J.*, **83**, 600.
97. BARROWCLIFF, M. & TUTIN, F. (1909). The Configuration of Tropine and ψ-Tropine and the Resolution of Atropine. *J. chem. Soc.*, **95**, 1966.
98. POWER, F. B. & MOORE, C. W. (1909). The Constituents of the Fruit of *Ecballium elaterium*. *J. chem. Soc.*, **95**, 1985.
99. TUTIN, F., CATON, F. W. & HANN, A. C. O. (1909). Syntheses in the Epinephrine Series. *J. chem. Soc.*, **95**, 2113.

1910

100. POWER, F. B. & ROGERSON, H. (1910). Chemical Examination of Jalap. *J. Amer. chem. Soc.*, **32**, 80.
101. TUTIN, F. & CLEWER, H. W. B. (1910). The Constituents of *Rumex ecklonianus*. *J. chem. Soc.*, **97**, 1.
*102. POWER, F. B. & MOORE, C. W. (1910). The Constituents of Colocynth. *J. chem. Soc.*, **97**, 99.
*103. POWER, F. B. & SALWAY, A. H. (1910). The Constituents of Red Clover Flowers. *J. chem. Soc.*, **97**, 231.
104. POWER, F. B. & SALWAY, A. H. (1910). Chemical Examination of Pumpkin Seed. *J. Amer. chem. Soc.*, **32**, 346.
105. POWER, F. B. & SALWAY, A. H. (1910). Chemical Examination of Watermelon Seed. *J. Amer. chem. Soc.*, **32**, 360.

** The numbers marked with an asterisk are out of print*

106. POWER, F. B. & ROGERSON, H. (1910). Chemical Examination of *Ornithogalum thyrsoides*. *Pharm. J.*, **84**, 326.
*107. ROGERSON, H. (1910). The Constituents of the Flowers of *Trifolium incarnatum*. *J. chem. Soc.*, **97**, 1004.
*108. POWER, F. B. & MOORE, C. W. (1910). The Constituents of the Leaves of *Prunus serotina*. *J. chem. Soc.*, **97**, 1099.
109. SALWAY, A. H. (1910). Synthesis of Cotarnine. *J. chem. Soc.*, **97**, 1208.
*110. MOORE, C. W. & TUTIN, F. (1910). Note on Gynocardin and Gynocardase. *J. chem. Soc.*, **97**, 1285.
111. POWER, F. B. & ROGERSON, H. (1910). Chemical Examination of the Tuberous Root of *Ipomœa horsfalliæ*. *Amer. J. Pharm.*, **82**, 355.
*112. TUTIN, F. (1910). The Resolution of Benzoyloscine. *J. chem. Soc.*, **97**, 1793.
113. MOORE, C. W. (1910). Note on the Constitution of *a*-Elaterin. *J. chem. Soc.*, **97**, 1797.
114. POWER, F. B. & ROGERSON, H. (1910). The Constituents of Leptandra. *J. chem. Soc.*, **97**, 1944.
115. TUTIN, F. (1910). The Constitution of Eriodictyol, of Homoeriodictyol, and of Hesperitin. *J. chem. Soc.*, **97**, 2054.
116. TUTIN, F. & CATON, F. W. (1910). The Synthesis of 2 : 4 : 6-Trimethyoxyphenyl-3 : 4-Dimethoxystyryl Ketone. *J. chem. Soc.*, **97**, 2062.
117. MOORE, C. W. (1910). The Constituents of Gelsemium. *J. chem. Soc.*, **97**, 2223.
*118. TUTIN, F. (1910). Syntheses in the Epinephrine Series, Part II. *J. chem. Soc.*, **97**, 2495.
119. TUTIN, F. & CATON, F. W. (1910). The Absorption Spectra of Some Substituted Pyrazines and their Salts. *J. chem. Soc.*, **97**, 2524.
120. SALWAY, A. H. (1910). Action of Sodium Amalgam on Methylene Ethers. *J. chem. Soc.*, **97**, 2413.

1911

121. POWER, F. B. & SALWAY, A. H. (1911). The Constituents of the Rhizome of *Iris versicolor*. *Amer. J. Pharm.*, **83**, 1.
122. ROGERSON, H. (1911). Chemical Examination of the Root of *Lasiosiphon meissnerianus*. *Amer. J. Pharm.*, **83**, 49.
123. SALWAY, A. H. (1911). The Orientation of the Nitro-group in Nitromyristicinic Acid. *J. chem. Soc.*, **99**, 266.
124. MOORE, C. W. (1911). *a*-*p*-Hydroxy-*m*-Methoxyphenylethylamine and the Resolution of *a*-*p*-Hydroxyphenylethylamine. *J. chem. Soc.*, **99**, 416.
*125. POWER, F. B. & SALWAY, A. H. (1911). The Constituents of *Withania somnifera*. *J. chem. Soc.*, **99**, 490.
*126. TUTIN, F. & CLEWER, H. W. B. (1911). The Constituents of Rhubarb. *J. chem. Soc.*, **99**, 946.
*127. POWER, F. B. & MOORE, C. W. (1911). The Constituents of Bryony Root. *J. chem. Soc.*, **99**, 937.
*128. MOORE, C. W. (1911). The Constitution of Scopoletin. *J. chem. Soc.*, **99**, 1043.
*129. TUTIN, F. (1911). The Constituents of the Bulb of *Buphane disticha*. *J. chem. Soc.*, **99**, 1240.
*130. MOORE, C. W. (1911). Some Derivatives of Gelsemine. *J. chem. Soc.*, **99**, 1231.
131. SALWAY, A. H. (1911). Synthesis of 4 : 6-Dimethoxy 2-*β*-Methylaminoethylbenzaldehyde. *J. chem. Soc.*, **99**, 1320.
132. TUTIN, F. (1911). Chemical Examination of *Oenanthe crocata*. *Pharm. J.*, **87**, 296.
*133. POWER, F. B. & CALLAN, T. (1911). The Constituents of the Seeds of *Casimiroa edulis*. *J. chem. Soc.*, **99**, 1993.
*134. SALWAY, A. H. (1911). Chemical Examination of Calabar Beans. *J. chem. Soc.*, **99**, 2148.
135. CALLAN, T. & TUTIN, F. (1911). Chemical Examination of the Leaves of *Anona muricata*. *Pharm. J.*, **87**, 743.

* *The numbers marked with an asterisk are out of print*

1912

*136. POWER, F. B. & ROGERSON, H. (1912). Chemical Examination of the Root of *Ipomœa orizabensis*. *J. chem. Soc.*, **101**, 1.

*137. TUTIN, F. & CLEWER, H. W. B. (1912). The Constituents of Commercial Chrysarobin. *J. chem. Soc.*, **101**, 290.

138. TUTIN, F. (1912). The Proposed Method of Microsublimation for the Detection of Aesculin and the Identification of Gelsemium. *Pharm. J.*, **88**, 157.

*139. POWER, F. B. & ROGERSON, H. (1912). Chemical Examination of Scammony Root and of Scammony. *J. chem. Soc.*, **101**, 398.

140. POWER, F. B. & CALLAN, T. (1912). Chemical Examination of Jambul Seeds. *Pharm. J.*, **88**, 414.

141. POWER, F. B. (1912). The Constituents of some Cucurbitaceous Plants. *Amer. J. Pharm.*, **84**, 145.

*142. SALWAY, A. H. (1912). Researches on the Constitution of Physostigmine, Part I. *J. chem. Soc.*, **101**, 978.

*143. ROGERSON, H. (1912). Chemical Examination of the Bark of *Euonymus atropurpureus*. *J. chem. Soc.*, **101**, 1040.

144. POWER, F. B. & SALWAY, A. H. (1912). Chemical Examination of the Bark of *Erythrophlœum guineense*. *Amer. J. Pharm.*, **84**, 337.

*145. TUTIN, F. & CLEWER, H. W. B. (1912). The Constituents of *Cluytia similis*. *J. chem. Soc.*, **101**, 2221.

*146. POWER, F. B. & BROWNING, H. (1912). The Constituents of *Taraxacum* Root. *J. chem. Soc.*, **101**, 2411.

1913

*147. POWER, F. B. & SALWAY, A. H. (1913). The Constituents of the Rhizome and Roots of *Caulophyllum thalictroides*. *J. chem. Soc.*, **103**, 191.

*148. SALWAY, A. H. (1913). Researches on the Constitution of Physostigmine, Part II. *J. chem. Soc.*, **103**, 351.

*149. POWER, F. B. & SALWAY, A. H. (1913). The Identification of Ipuranol and some Allied Compounds as Phytosterol Glucosides. *J. chem. Soc.*, **103**, 399.

150. POWER, F. B. & BROWNING, H. (1913). Chemical Examination of *Euphorbia pilulifera*. *Pharm. J.*, **90**, 506.

Authors who are past or present members of the staff of the Wellcome Research Laboratories are distinguished by the numbers 1-4 as follows :—

[1]Wellcome Laboratories of Tropical Medicine (formerly Wellcome Bureau of Scientific Research).

[2]Wellcome Physiological Research Laboratories.

[3]Wellcome Chemical Research Laboratories.

[4]Wellcome Chemical Works.

Others are Collaborators who are not members of any of the staffs of the Wellcome Research Laboratories.

PUBLICATIONS

from

THE WELLCOME PHYSIOLOGICAL RESEARCH LABORATORIES

1903–1907

1. Shaw, W. V. (1903). Acute Rheumatic Fever and its Etiology. *J. Path. Bact.*, **9**, 158.
2. Barger, G. & Shaw, W. V. (1904). Chemical and Physiological Assay of Digitalis Tinctures. *Year Book of Pharmacy.*
3. Barger, G. (1904). Microscopical Method of Determining Molecular Weights *J. chem. Soc.*, **85**, 286.
4. Barger, G. & Jowett, H. A. D. (1905). Synthesis of Substances Allied to Epinephrine. *J. chem. Soc.*, **87**, 967.
5. Barger, G. (1905). Association in Mixed Solvents. *J. chem. Soc.*, **87**, 1042.
6. Mellanby, J. (1905). Globulin. *J. Physiol.*, **33**, 338.
7. Dale, H. H. (1905). The Physiological Action of Chrysotoxin. *J. Physiol.*, **32**, *(Proc. physiol. Soc.* lviii).
8. Barger, G. (1906). Saponarin. *J. chem. Soc.*, **89**, 1210.
9. Dale, H. H. (1906). On Some Physiological Actions of Ergot. *J. Physiol.*, **34**, 163.
10. Barger, G. & Carr, F. H. (1907). The Alkaloids of Ergot. *J. chem. Soc.*, **91**, 337.
11. Barger, G. & Dale, H. H. (1907). Ergotoxine and Some Other Constituents of Ergot. *Biochem. J.*, **2**, 240.

1908

12. Mellanby, J. (1908). Diphtheria Antitoxin. *Proc. Roy. Soc.*, B, **80**, 339.
13. Sudmersen, H. J. & Glenny, A. T. (1908). Some Non-specific Reactions of Mallein. *J. Hyg.*, **8**, 14.
14. Symons, C. T. (1908). Wave-like Variations in Muscular Fatigue Curves. *J. Physiol.*, **36**, 25.
15. Barger, G. (1908). The Action of Thionyl Chloride and of Phosphorus Pentachloride on the Methylene Ethers of Catechol Derivatives. *J. chem. Soc.*, **93**, 563.
16. Barger, G. & Ewins, A. J. (1908). The Action of Thionyl Chloride on the Methylene Ethers of Catechol Derivatives. Part II. *J. chem. Soc.*, **93**, 735.
17. Barger, G. & Ewins, A. J. (1908). Synthesis of Thionaphene Derivatives from Styrenes and Thionyl Chloride. *J. chem. Soc.*, **93**, 2086.

1909

18. Dale, H. H. (1909). Note on Nutmeg Poisoning. *Proc. Roy. Soc. Med.*, **2** *(Sect. Therap. & Pharm.*, 69).
19. Dale, H. H. (1909). The Actions of Extracts of The Pituitary Body. *Biochem. J.*, **4**, 427.
20. Barger, G. & Walpole, G. S. (1909). Isolation of the Pressor Principles of Putrid Meat. *J. Physiol.*, **38**, 343.
21. Dale, H. H. & Dixon, W. F. (1909). Action of Pressor Amines Produced by Putrefaction. *J. Physiol.*, **39**, 25.
22. Barger, G. (1909). Isolation and Synthesis of *p*-Hydroxy-phenylethylamine. *J. chem. Soc.*, **95**, 1123.
23. Barger, G. & Dale, H. H. (1909). The Water-soluble Active Principles of Ergot. *J. Phys.* **38** *(Proc. physiol. Soc.*, lxxvii).
24. Barger, G. & Walpole, G. S. (1909). Further Synthesis of *p*-Hydroxy-phenylethylamine. *J. chem. Soc.*, **95**, 1720.

Authors who are past or present members of the staff of the Wellcome Research Laboratories are distinguished by the numbers 1-4 as follows :—

[1]Wellcome Laboratories of Tropical Medicine (formerly Wellcome Bureau of Scientific Research).

[2]Wellcome Physiological Research Laboratories.

[3]Wellcome Chemical Research Laboratories.

[4]Wellcome Chemical Works.

Others are Collaborators who are not members of any of the staffs of the Wellcome Research Laboratories.
